PROFESSIONAL EXPERIENCE

Laravel Developer (Contract) | Confidential client — May 2026 - Oct 2026

- Engineered subscription-tier architecture (Free, Gold, Platinum) using custom Laravel middleware, increasing platform monetization capabilities.
- Developed advanced property filtering algorithms, a multipart image upload system, and an automated admin approval workflow for new listings.
- Integrated Auth0 authentication, SendGrid email verification, Twilio SMS OTP, and Stripe checkout to secure user onboarding and transactions.
- Refactored legacy codebase using service classes and the repository pattern; optimized database tables and indexing to improve listing grid load speeds by 30%.

PHP / Laravel Developer | WTS Technologies (Pudsey, UK) — Apr 2025 - Apr 2026

- Collaborated with a Team Lead to build and launch high-performance REST APIs for CRM and radio platforms using Laravel and MySQL.
- Developed responsive Laravel web applications for 5+ diverse industry clients, including healthcare, nursery, playground, garage, and financial services.
- Integrated secure Stripe payment gateways into a driving-school platform, reducing checkout friction and transaction errors.
- Conducted comprehensive SEO audits and code optimizations, boosting organic search visibility and client website performance.

PHP / Laravel Developer | iRoid Solutions (Surat, India) — Dec 2022 - Feb 2025

- Engineered backend features and scalable REST APIs using Laravel and MySQL for event-booking, paid-membership, and healthcare-shift applications.
- Successfully resolved critical, long-standing Stripe and PayPal payment configuration errors on an enterprise virtual-tour platform.
- Authored clean, scalable REST APIs for a healthcare shift-finder application, coordinating deliverables within an agile team of 7 developers.

Software Developer | Squad Tech Pvt. Ltd. (Ahmedabad, India) — Mar 2022 - Oct 2022

- Promoted from Intern to Full-Time Developer within months based on consistent technical delivery and quick onboarding.
- Debugged, maintained, and optimized core features within enterprise CodeIgniter web applications to improve system stability.
